

Comberton Crusaders FC

Cambourne Eagles 6v3 Comberton Crusaders 23rd February

A very tough game today against Cambourne, Who played to their strengths and in the 1st quarter we could not cope with it (SHOCK & AWE).

Our general teamwork let us down today. We have a great group of players who could play together for the next few years and when they play as a team they are superb. Supporting your team is easy when we have won lately 8-2 / 9-4 / 9-0 & 12-2 and they showed they can support each other like they did in our last game v Bar Hill Colts but its in games like today when we're in a battle that the support of your team mates can make all the difference.

I would like to see any player not on the pitch supporting and encouraging their team-mates and sometimes a player will be asked to play in a role which is alien or which they might not prefer for the good of the team.

We as coaches want all the players to enjoy their football and improve their skills and knowledge, This is why I keep harping on about Attitude & Effort as these are as important as Ability.

It was not all bad news as you can see from below, apart from the 1st quarter it was a very close game and we scored 3 very good goals.
